

Academic Year 2025

**Graduate School of Science
Hokkaido University**

Master's Course

(Former Period of Doctoral Program)

Winter Selection

**Guidelines for Application for the
Entrance Examination**

For enrollment April 2025 or October 2025

(Admission for General Category)

November 2024

Notes

Applicants for general category must submit a certificate for English Language proficiency (the original of score sheet of either TOEFL or TOEIC). See page 5 for details.

As for the examination schedule, etc., please confirm it by yourself based on the period of application receipt. Applicants who have already submitted a score sheet for the summer admission (August 8 & 9, 2024) or autumn admission (November 6 & 7, 2024) may apply for exemption from submitting a score sheet (or may submit a new score sheet). Applicants must tick the box 'Exemption from score sheet submission' on the application form.

- (6) Applicants will be informed separately about the handling of personal data in accordance with the EU General Data Protection Regulation (GDPR). Applicants to whom such rules apply (those applying from within the European Economic Area (EEA) member states) should notify the Graduate School Educational Affairs Section, Science and Life Science Administration Department, prior to application.

Admission Policy for the Graduate School of Science

Applicants must have completed core subjects in the fields of Mathematics, Physics, Chemistry, Biological Sciences, Earth Sciences, or related subjects to engage in more specialized and advanced academic research. They must also have the ability, character, and aptitude to study independently and to rigorously investigate the principles of nature.

▪ Principle Selection Policy (Multiple-Layered Evaluation Method)

【General Category】

Written and oral examinations will be conducted in accordance to each department and field of study.

In the written examination, particular emphasis will be placed on the evaluation of "knowledge and skills" and "ability to think, judge, and express".

In the oral examination, particular emphasis will be placed on the evaluation of "knowledge and skills," "ability to think, judge, and express," "ability to work independently and cooperatively", "comprehension", "ability to identify problems", and "interest and motivation".

The Graduate School of Science will comprehensively assess applicants on the basis of the application documents (such as research plan, transcript, etc.).

【Special Category for International Students】

In the oral examination, particular emphasis will be placed on the evaluation of "knowledge and skills," "ability to think, judge, and express," "ability to work independently and cooperatively", "comprehension", "ability to identify problems", and "interest and motivation".

The Graduate School of Science will comprehensively assess applicants on the basis of the application documents (such as research plan, transcript, etc.).

[Important]

- ① For more details about each department, please contact the department concerned.
- ② Applicants to the Department of Natural History Sciences must check the appropriate box on the Application Form for the Divisions of Earth and Planetary Science etc. (Earth and Planetary Dynamics / Earth and Planetary System Science / Seismology and Volcanology).
- ③ There is no Winter Selection for the Division of Biodiversity and Division of Science Communication in the Department of Natural History Sciences.

2. Eligibility

Applicants must fulfill one of the following criteria:

- (1) Graduated or are expected to graduate from a university prior to admission;
- (2) Received or are expected to receive a bachelor's degree prior to admission in accordance with Article 104(7), of the School Education Act (Act No. 26 of 1947);
- (3) Completed or are expected to complete 16 years of structured education outside Japan prior to admission;
- (4) Completed or are expected to complete 16 years of structured education in a foreign country through a distance-learning course offered by an institution of that country while living in Japan prior to admission;
- (5) Completed or are expected to complete education at an institution established in Japan that is recognized by the school education system of a foreign country as an equivalent to a university of that country (limited to individuals who are recognized as having completed 16 years of structured education in that country) and that is designated by the Minister of Education, Culture, Sports, Science, and Technology (MEXT), prior to admission;
- (6) Received or are expected to receive a degree equivalent to a bachelor's degree from a university or institution outside Japan (limited to the university or institution which has received evaluation from the person who is authorized by the government of that country or the relevant agencies regarding the overall performance of its education and research activities, or which has been separately designated by MEXT as equivalent to the aforementioned) by completing a program that requires three years or more of course work (including the case of completing a distance-learning course offered by an institution of that country while living in Japan, and the case of completing a study at the institution recognized by the school education system of that country and designated by MEXT as referred to in (5));
- (7) Completed or are expected to complete a specialist training course at a vocational school (limited to a course with a period of four years or more and that satisfies the conditions set by the MEXT) that is designated separately by the MEXT after the date set by the MEXT;
- (8) Have been designated by the MEXT (Ministry of Education Notification No. 5, February 7 of 1953);

- (9) Have attended a university for three years or more or completed 15 years of structured education outside Japan, and are recognized by the Graduate School of Science as having earned the required number of credits with an excellent academic record; or
- (10) Are recognized as having an academic aptitude equivalent or superior to university graduates through the screening for entrance eligibility conducted by the Graduate School of Science and have reached the age of 22 by the enrollment date.

- * Applicants can not apply for “I General Category” and “II Special Category for International Students” at the same time.
- * Applicants must contact their prospective supervisor and obtain his/her acceptance in advance. The approval from the prospective supervisor does not confirm the success in the entrance examination. Also, applicants must check a supplementary description of “Documents Specified by Each Department” (Reason for application and List of preferred laboratories or fields).
- * Applicants who wish to enroll in October 2025 must indicate so by checking the appropriate box on the application form.

3. Pre-assessment of Eligibility

Application Period: November 28 – December 2, 2024

Applicants who fall under (9) or (10) in “2. Eligibility” must go through a pre-assessment of eligibility prior to the application for entrance examination. Please submit “5. Application Documents” during the period described above. To receive the result, please enclose a self-addressed envelope with a 110-yen stamp affixed.

*Details of the entrance exam including the exam time and place will be sent along with the admission ticket.
The time of the oral examination will differ among examinees.

[Important]

- ① Applicants for both Condensed Matter Physics and Cosmosciences will be questioned about basic academic skills of specialized subject during oral examination.
- ② Out of the applicants to the Department of Natural History Sciences, those who apply to the Division of: Earth and Planetary Dynamics; Earth and Planetary System Science, or Seismology and Volcanology are required to choose two subjects areas from among five specialized subject areas, i.e., mathematics, physics (including the topic of earth and planetary physics), chemistry (including the topic of earth and planetary chemistry), earth science I (earth history, tectonics, and sedimentology), and earth science II (lithology, mineralogy, and volcanology).

10. Announcement of Results

The examinee's number of successful applicants will be posted on the website of the Graduate School of Science around 4:30 PM on February 20, 2025. All applicants are notified of their results individually.

11. Procedures for Enrollment and Payment of Fees

All successful applicants are notified of the registration procedure at the time of notification of results.

Enrollment Fee: 282,000 yen (estimated)

Extension of the Enrollment Duration

1. Aims

When students are under special circumstances such as having a job, etc. (including child and nursing care), they may apply for an extension of enrollment duration which exceeds the standard enrollment duration (2 years) (hereinafter referred to as "Extension of the Enrollment Duration"). The graduate school may approve such requests after reviewing their application.

2. Intended Students

Students who fall under one of the criteria below and for that reason, wish to set the enrollment duration longer than the standard duration to complete an academic (research) course:

- (1) Have a full-time job in a public office or company (excluding those who are exempt from job duty but receive a salary), or are self-employed;
- (2) Have a part-time job that has a significant influence on the full-time academic work;
- (3) Are taking care of children or other family members, which has a significant influence on the full-time academic work; or
- (4) Are visually impaired, hearing impaired, physically handicapped, etc., which are deemed to have a significant influence on the academic work for an extended period of time.

3. Maximum Enrollment Duration

The maximum enrollment duration is 4 years for the master's degree program, and a student can apply for extension by the year. For Students who have been approved for Extension of the Enrollment Duration, the maximum duration of enrollment is approved duration plus 2 years .

Students may take a temporary leave of absence from school for up to 2 years, the same as the students under the standard duration of study.

4. Application Procedure

(1) Application Period

As a general rule, application documents for Extension of the Enrollment Duration should be submitted at the time of application for entrance examination.

(2) Required Documents

- ① Application Form for Extension of the Enrollment Duration(Form 1).
- ② Research Plan Under Extension of the Enrollment Duration (Form 2).
- ③ Documents to prove that an applicant needs to apply for Extension of the Enrollment Duration

(3) Announcement of Results

The Graduate School of Science reviews each application individually and will notify the results to all the successful applicants who passed the entrance examination.

5. Reducing or Extending the Duration of Enrollment

When regarded as necessary, the Graduate School of Science may approve Reduction or Extension of the Enrollment Duration only once. The maximum reduction of Extended Duration of Enrollment is the period of adding one year to the standard duration of study (2 years).

6. Annual Tuition Fee

The tuition fee for students with the extension of enrollment duration will be calculated by multiplying the annual tuition fee by the number of years equivalent to the standard duration of study (2 years), then dividing the resulting amount by the number of years approved for extended study. If the revision is made to the tuition fee or the changes to the Duration of Extended Enrollment are approved, the fee will be calculated accordingly. However, the adjustment will not be made to the tuition fee which has already been paid.

Students who have not received the results of their application for the Extension of Enrollment Duration must not pay the tuition fee before they receive the official notification of the results.

7. Other Information

For more details about the Extension of Enrollment Duration, please contact the Graduate School Educational Affairs Section, Science and Life Science Administration Department, Hokkaido University.
