

Academic Year 2026

**Graduate School of Science
Hokkaido University**

Doctoral Course

(Latter Period of Doctoral Program)

Winter Selection

**Guidelines for Application for the
Entrance Examination**

For enrollment in April 2026 or October 2026

(Admission for International Students Residing Abroad)

November 2025

Notes

Applicants for special category (international students) must submit a certificate for Japanese or English language proficiency. Applicants who have difficulties in submitting certificates for Japanese or English language proficiency may submit a transcript or similar document that shows Japanese or English grades issued by the university or school they graduated from.

Notes to international applicants who enter Japan from overseas

Applicants who wish to enroll at Hokkaido University as international students are required to obtain a "Student" status of residence. Therefore, you must apply for a Student Visa before entering Japan. To apply for a Student Visa, a Certificate of Eligibility (COE)* is required.

Please note that the issuance of the COE may take more than three months from the time of application due to Security Export Control inspections and immigration procedures.

Additionally, please note that if your intended research falls under the regulations of the Security Export Control Regulations, restrictions may apply.

*Certificate of Eligibility: This is a certificate that the Immigration Bureau pre-approves applicants' purpose of stay in Japan and speeds up the visa application process.

Admission Policy for the Graduate School of Science

Applicants must have completed core subjects in the fields of Mathematics, Physics, Chemistry, Biological Sciences, Earth Sciences, or related subjects. To engage in more specialized and advanced academic research, they must also have the ability, character, and aptitude to study independently and to rigorously investigate the principles of nature as well as must have extensive knowledge and techniques.

▪ Principle Selection Policy (Multiple-Layered Evaluation Method)

【General Category】

Written and oral examinations will be conducted in accordance with each department and field of study.

In the written examination, particular emphasis will be placed on the evaluation of “knowledge and skills” and “ability to think, judge, and express”. In the oral examination, particular emphasis will be placed on the evaluation of “knowledge and skills”, “ability to think, judge, and express”, “ability to work independently and cooperatively”, “comprehension”, “ability to identify problems”, and “interest and motivation”.

The Graduate School of Science will comprehensively assess applicants on the basis of the application documents (such as research plan, transcript, etc.).

【Special Category for Working Adults】

Written and oral examinations will be conducted in accordance with each department and field of study.

In the written examination, particular emphasis will be placed on the evaluation of “knowledge and skills” and “ability to think, judge, and express”.

In the oral examination, particular emphasis will be placed on the evaluation of “knowledge and skills”, “ability to think, judge, and express”, “ability to work independently and cooperatively”, “comprehension”, “ability to identify problems”, and “interest and motivation”.

The Graduate School of Science will comprehensively assess applicants on the basis of the application documents (such as research plan, transcript, etc.).

For applicants under the Special Category for Working Adults, academic skills may be judged by their research achievements in practice (through an interview), rather than knowledge on their specified field or foreign language skills. In addition, their levels of “knowledge and skills”, “ability to think/judge/ express”, “ability to work independently and cooperatively”, “comprehension”, “ability to identify problems”, and “interest and motivation” are given a great importance.

2. Eligibility

Applicants must be a citizen of a country other than Japan and living outside of Japan (therefore it is difficult to travel to Japan to take the entrance examination). They must be recognized as having enough competence and scholastic performance by a faculty member of the Graduate School of Science who has agreed to be a supervisor* after enrollment. Also, they must fulfill one of the following criteria:

- (1) Received or are expected to receive a degree equivalent to a master's degree or a professional degree at a university outside Japan prior to admission;
- (2) Received or are expected to receive a degree equivalent to a master's degree by completing a course at the United Nations University which was established based on the United Nations General Assembly Resolution of December 11 of 1972, stipulated in Article 1(2) of the Act on Special Measures Concerning the Enforcement of the Agreement between the United Nations and Japan about the Headquarters of the United Nations University (Act No. 72 of 1976);
- (3) Are recognized as having academic aptitude equivalent or superior to those who hold a master's degree by completing a school education provided by an institution of a foreign country or the United Nations University, and by passing an examination or screening or equivalent specified in Article 16-2 of the Standards for the Establishment of Graduate Schools;
- (4) Have been designated by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) (Ministry of Education Notification No. 118 of 1989), i.e., completed 16 years of structured education outside Japan and subsequently engaged in research at a university or a research institute for two years or longer, and are recognized by the Graduate School of Science as having reached an academic level equivalent or superior to those who hold a master's degree, based on research results; or
- (5) Are recognized as having an academic aptitude equivalent or superior to those who hold a master's degree or a professional degree through the screening for entrance eligibility conducted by the Graduate School of Science, and have reached the age of 24 by the enrollment date.

*** Applicants must contact their prospective supervisor and obtain his/her acceptance in advance. Then they will receive a password necessary for online application. The approval from the prospective supervisor does not confirm the success in the entrance examination. Also, applicants must request their prospective supervisor to write a recommendation letter (discretionary format) and ask him/her to submit it to the Graduate School Educational Affairs Section during the application period.**

*** Those who wish to enroll in October 2026 must indicate so by choosing “October 2026 enrollment” at the time of online application.**

3. Pre-assessment of Eligibility

Application Period: November 27 – December 1, 2025, by 5:00 PM JST

Applicants who fall under (4) or (5) in “2. Eligibility” must go through a pre-assessment of eligibility prior to the formal application period for entrance examination. Please submit “6. Application Documents” in PDF format during the above period by email to the address below. If you provide false information, your application may be rejected.

Email address: r-gakuin@sci.hokudai.ac.jp

Applicants must not pay the entrance examination fee at the time of the pre-assessment.

The results of the pre-assessment will be sent to applicants around December 11, 2025, by email. Once their eligibilities have been confirmed, applicants must pay the examination fee in accordance with “5. Application Procedure and Payment of Fees” during the period described in “4. Application Period”.

Students who will receive the Japanese Government (MEXT) scholarship or the State- Sponsored Scholarship Program of the China Scholarship Council are not required to pay the examination fee.

4. Application Period

◆ Online application: December 11 – December 16, 2025, by 5:00 PM JST

* After completing the online application, applicants must scan all application documents in PDF format and send them via email by December 16, 2025.

Email address: r-gakuin@sci.hokudai.ac.jp

◆ Deadline for submitting application documents by post: January 8, 2026, by 5:00 PM JST

* Aside from the PDF files sent by email, applicants must send hard copies of the application documents by registered mail. They must be received by the deadline so consider the time for courier delivery.

* **Applicants under (1), (2), or (3) in “2. Eligibility”** must apply by referring to “5. Application Procedure and Payment of Fees” during the application period.

* **Applicants under (4) or (5) in “2. Eligibility”** must first apply for the pre-assessment explained in “3. Pre-Assessment of Eligibility”. Once their eligibility has been confirmed, they must complete the procedure described in “5. Application Procedure and Payment of Fees” during the application period.

5. Application Procedure and Entrance of Fees

Applicants must complete all of the following (①-③) by the deadline specified in “4. Application Period”.

① Online Application

Applicants must have (or have access to) a printer for printing the application documents, and have an email address capable of receiving a notification from the university (cell phone’s email address is not accepted).

1) Access the Hokkaido University Online Application website using the password received from the prospective supervisor (<https://e-apply.jp/e/hokudai-sci/>)

2) Read the instructions on the website carefully and fill out all the necessary information.

3) If successfully registered, notification will be sent to the email address you have provided.

② Payment of Entrance Examination Fee

Extension of the Enrollment Duration

1. Aims

When students are under special circumstances, such as having a job, childcare, and nursing care, etc., they may request an extension of their enrollment duration beyond the standard three-year duration (hereinafter referred to as the "Extension of the Enrollment Duration"). The graduate school may approve such requests after reviewing their applications on an individual basis.

2. Intended Students

Students who fall under one of the criteria below and, for that reason, wish to set the enrollment duration longer than the standard duration to complete an academic (research) course:

- (1) Have a full-time job in a government office or a private company (excluding those who are exempt from job duty but receive a salary), or work as self-employed, etc.;
- (2) Have a part-time job that has a significant influence on the full-time academic work;
- (3) Are taking care of their children or family members, which has a significant influence on the full-time academic work; or
- (4) Are visually impaired, hearing impaired, physically handicapped, etc., which are deemed to have a significant influence on the academic work for an extended period of time.

3. Maximum Enrollment Duration

The maximum duration of the Extension of the Enrollment Duration shall not exceed six years for the doctor's degree program, and students can apply for an extension by year. For students who have been approved for an Extension of the Enrollment Duration, the maximum duration of enrollment is six years.

Students may take temporary leave of absence from school for up to three years, the same as students under the standard period of study.

4. Application Procedure

(1) Application Period

As a general rule, application documents for the Extension of the Enrollment Duration should be submitted at the time of application for the entrance examination.

(2) Required Documents

To apply for the Extension of the Enrollment Duration, please contact the Graduate School Educational Affairs Section in the Science and Life Science Administration Department and request the required forms/documents ahead of time.

- ① Application Form for Extension of the Enrollment Duration (Form 1).
- ② Research Plan Under Extension of the Enrollment Duration (Form 2).
- ③ Documents to prove that an applicant needs to apply for the Extension of the Enrollment Duration

(3) Announcement of Results

The Graduate School of Science reviews each application individually and will notify the results only to the successful applicants who passed the entrance examination.

5. Reducing or Extending the Extension of the Enrollment Duration

When deemed necessary, the Graduate School of Science may approve a reduction or extension of the Extension of the Enrollment Duration only once during the period of a course. However, the maximum reduction of the extended duration of enrollment is the standard duration of study (three years) plus an additional year.

For more details about the Extension of Enrollment Duration, please refer to the guide of “理学院在学者用” after enrollment.

6. Annual Tuition Fee

The tuition fee for students granted the Extension of Enrollment Duration will be calculated by multiplying the annual tuition fee by the number of years equivalent to the standard duration of study (three years), then dividing the resulting amount by the number of years approved for extended study. If the revision is made to the tuition fee or the changes to the Extension of the Enrollment Duration are approved, the fee will be calculated accordingly. However, the adjustment will not be made to the tuition fee that has already been paid.

Students who have not received the results of their application for the Extension of Enrollment Duration must not pay the tuition fee before they receive the official notification of the results.

7. Other Information

For more details about the Extension of Enrollment Duration, please contact the Graduate School Educational Affairs Section, Science and Life Science Administration Department, Hokkaido University.
